

“I am very glad for the wonderful care I have received. In a fast-changing world, I really want the quality of care to remain a constant.

I really value the holistic focus given to each patient. I hope the quality of care will continue not only for me, but for my family, grandchildren and others. St Vincent’s is a remarkable hospital.” Cheryl Power

ST VINCENT'S PRIVATE HOSPITALS

St Vincent's Private Hospitals are an integral part of Victoria's healthcare. We have proudly cared for the community for more than 80 years. Our major specialities include orthopaedics, cardiac services, maternity, neurosciences and reconstructive plastic surgery.

As a not-for-profit organisation, we rely on the generosity of individuals and organisations to help us to continue to provide the highest level of therapeutic, medical and surgical services.

Including a Gift in your Will assists us to purchase new medical equipment, educate our staff and with the development of capital campaigns, so we can continue to provide the most up-to-date treatment options.

Our heritage

St Vincent's has extraordinary medical professionals working together to provide the best possible care to people from all walks of life.

From our humble beginnings, the generosity of the community has played an essential role in our work and growth.

Our need for support remains just as great as ever

Victorians' generosity helped to build St Vincent's to become the great hospitals they are today. We need ongoing support to continue to be leaders in healthcare for all Victorians, long into the future.

Including a Gift in your Will is the most caring way you can give, providing the greatest impact. It will help to create better care and medical outcomes for future generations.

All gifts, large or small, have a meaningful impact on the care we provide.
