

Your Story is Our Story

Your story may have already started with us, through the treatment and care we have given to you or your loved ones. Your healthcare journey may be in the future, or for those in the community for whom we all care, in spirit and commitment.

You are invited to share in our future by supporting the Capital Appeal for the exciting new 12-level building at St Vincent's Private Fitzroy. Benefits of this development include:

- Four new state-of-the-art Operating Theatres
- New expanded Intensive Care Unit & Radiology services
- Maternity services birthing suites and Special Care Nursery
- Neurology and Neurosurgery services
- Integrated Cancer Research program offering Phase 1 patient clinical trials
- Digestive Diseases Centre of Excellence
- Heart & Lung Disease services, include cardiac robotics program
- Integration of public & private health to deliver quality, accessible care for all Australians.

04	Perinatal Services & Outdoor Garden
03	Birthing Suites & Special Care Nursery
02	Operating Theatres & Recovery Unit
01	Day of Surgery Unit & Cardiac Cath Lab
G	Main Foyer & Garden

We're Growing

St Vincent's Hospital in Fitzroy is growing. We're investing \$180m a new state-of-the-art 12-storey building, that will increase opportunities to share research, clinical expertise and care across our broad centres of excellence. This leadership initiative will benefit you and your family, along with an additional 20,000 patients a year.

Our Story is Your Story

Our story is of inspired people doing great things over a long time. Our story is deeply connected to place – Fitzroy, Melbourne, Australia and beyond. Our story is deeply connected to exceptional healthcare, healing the sick and caring for generations of patients and their families.

Medicine is moving so fast, it is developing at a frantic pace with new skills, new ideas, new equipment and technology. The COVID-19 pandemic over the last two years has changed the face of healthcare. We have faster and innovative ways to communicate with patients and deliver their care. Stronger approaches to the whole of patient experience require greater investment in technology, equipment and best practice.

Now we need to renovate, expand and upgrade our facilities. St Vincent's Private opened at the existing site in 1972. It was ahead of its time then. After 50 years of alterations and adaptations the facility is in need of redevelopment. We need more operating theatres, day surgery facilities, extended and more private Intensive Care Unit facilities and patient rooms built to today's standards.

Our ambition is to raise \$20 million to help fund the new 12-level building. We invite our community to share in our vision by making a living legacy gift or pledge to the support the St Vincent's Private Hospital Capital Appeal.

2024

Our future story is here.
Our dedicated staff, our patients and their families will greatly benefit when the new 12-level building is completed in 2024.
