

A lasting legacy

Over its 80-year history, St Vincent's Caritas Christi Hospice has enjoyed heartfelt support from the Victorian community.

The redevelopment of the Hospice is vitally important and will ensure that the best possible care is provided to patients and their families at a most vulnerable time in their lives. The new building will provide a lasting legacy both for those who contribute as well as to thousands of future patients requiring care. We hope this will also provide an opportunity for you to be further involved.

Naming part of the new building is an ideal way of honouring a friend or family member, business or community organisation. We would be delighted to discuss this further with you.

In addition, there will be an electronic honour board placed prominently at Caritas Christi, which will enable other levels of giving. Those with a named space will also have a place on the honour board.

Please consider creating an enduring legacy and contact us today.
